

TOWN OF EAST WINDSOR

FIRST SELECTMAN JASON E. BOWSZA

January 6, 2022

Good evening,

This is First Selectman Jason Bowsza reaching out to all residents in the Town of East Windsor.

I want to share a few updates with you about COVID-19 resources.

First, we will be doing another at-home COVID test distribution on Saturday, January 8, from 11am to 1pm – or while supplies last - at the Town Hall. This will again be a drive-through model. Please remain in your vehicles and wear a mask when a volunteer approaches your window. Tests will be available to East Windsor residents only. Proof of residency will be required, and we will provide one test kit per valid ID.

Secondly, N95 masks will be available to the general public at Saturday's test kit distribution, and as follows over the next few weeks:

- Monday-Thursday at the Town Hall and at the Town Hall Annex from 12:30pm to 4:30pm
- Saturdays at the Warehouse Point Library from 10am-3pm

Lastly, we were able to provide a PCR testing event yesterday at the Town Hall Annex. This was accomplished through collaboration between Town employees, the East Windsor Ambulance Association, and Priority Urgent Care. We will offer another PCR testing opportunity next Wednesday, January 12th from 9am to 1pm at the Town Hall Annex. Please park in the designated spaces and remain in your vehicle. Someone will come to your car to administer the test.

I wish you continued good health.

Sincerely,

Jason E. Bowsza
First Selectman
